

■ Student Dashboard API Documentation

The **Student Dashboard API** provides authenticated students with a complete overview of their profile, document uploads, clearance progress, and remaining requirements. It aggregates data from multiple models including **StudentProfile**, **Document**, **ClearanceType**, and **ClearanceProcess**.

■ Endpoint

Method: GET

URL: /user_profile_api/dashboard/

Auth Required: Yes (JWT)

Description: Returns full dashboard data for the authenticated student.

■ Permissions

Only authenticated students can access this endpoint. Admins cannot fetch dashboards of other users.

■ Workflow Summary

- 1 Authenticate user via JWT
- 2 Retrieve the student's profile
- 3 Fetch uploaded documents
- 4 Get clearance status
- 5 Identify required documents
- 6 Compare uploaded vs required documents
- 7 Calculate overall progress
- 8 Return structured JSON data

■ Example Response

```
{
  "profile": {
    "id": 12,
    "user": {"username": "ENG2100345", "email": "student@example.com", "first_name": "John", "last_name": "Doe"},
    "matric_number": "ENG2100345",
    "school": {"code": "ENG", "full_name": "School of Engineering"},
    "faculty": {"code": "MECH", "full_name": "Faculty of Mechanical Engineering"},
    "department": {"code": "MEC", "full_name": "Department of Mechatronics"},
    "level": "400",
    "is_verified": true,
    "profile_picture": "/media/profile_pics/ENG/MECH/MEC/John_ENG2100345.jpg"
  },
  "documents": [
```

```
{
  "id": 5, "document_name": "Library Clearance", "file_url":
  "/media/documents/Library Clearance/ENG/MECH/MEC/John_ENG2100345.pdf", "status":
  "Approved"}
],
"clearances": [
  {"id": 1, "clearance_type_name": "Library", "status": "Approved"},
  {"id": 2, "clearance_type_name": "Finance", "status": "Pending"}
],
"remaining_requirements": ["School Fees Receipt", "Hostel Clearance"],
"overall_progress": 66.67
}
```

■ Usage Notes

Use JWT Authorization Header:
Authorization: Bearer <your_token>

Designed for dashboard data retrieval after student login.
